

## 2013-11: Weigel at Hofmann and Grün/Winter technology days

We like to inform you that Company Weigel is proud and honoured to have been invited to participate at the Hofmann technology day, 28 November, in Rellingen (Hamburg), (booth 34); and as well to company Grün/Winter day, 29 November, in Fitzbek (Hamburg), (practical Demo PeelJet® Advanced). We thank both of our hosts for the kind invitation and confidence in our technology; and we would like to ask all our friends and clients to take the opportunity to meet us at these events; and also to have a look at the technology of our hosts.

Please advise us, if you will need additional information/invitations. Please let us know about your participation as well.
